#### **Other Business:**

Wayne Karem presented possible plans for his old auto repair shed building at 703 Henry Clay St. While it was approved for demolition in November, 2023, he would like to work with enough of the building's existing components to avoid having to comply with the setback requirements of a new structure (lot is small and would not accommodate this well). Commissioners agreed that major modifications and metal siding (since it is currently metal sided) would be considered if submitted in the form of a COA application in the future.

**Adjourn: Motion:** Commissioner Magan **Seconded:** Commissioner Henson **Approved** **Time:** 6:57 p.m.
